

# How to install iptv on smart tv " Samsung & LG Smart TV "

## Set up on Samsung :

Fortunately, Samsung has recently added the IPTV Smarters to their App Stores which means you don't need to sideload the app now and there is no need for the computer either.

These are the steps that you can follow to get IPTV Smarters on Samsung TV in order to use our service:

- **Step 1:** Press the Smart Hub button from your remote.
- **Step 2:** Search for the IPTV Smarters Pro to install.
- **Step 3:** Log in to the Application with your subscription details.

## Set on LG Smart TV:

In case you own the LG which is running the LG WebOS then you can easily get the application from their Store directly. Just like Samsung, they have also added the IPTV Smarters officially to their App Store.

Below are the Steps to download IPTV Smarters on your LG in order to use our service:

- **Step 1:** Press the Home button on the remote & Go to LG Content Store.
- **Step 2:** Search for the IPTV Smarters Pro to install.
- **Step 3:** Log in to the Application with your subscription details.
